

CTM DEVELOPMENT
COLLABORATIVE SOFTWARE

CTM Development SA - www.ctmdev.com - is a small producer of software applications founded in 1988 in Geneva.

In order to extend products based on our CTM FoxTrot™ retrieval engine, we are seeking

a part-time C/C++ developer

comfortable with client/server (TCP/IP sockets, multi-threading) application development, as well as writing for Windows XP or Mac OS X platforms.

The following skills would be a plus:

- Linux development experience
- usage and creation of open source libraries
- Objective C and/or C# languages
- .NET, Cocoa and/or PowerPlant frameworks

Required languages: Technical English

Timetable: Flexible and compatible with a student status or parental responsibilities

Occupational %: 40-60%, or to be determined on a project basis

Entry: Immediate or to be determined

Location: In Geneva 1x week minimum + remote

Deadline: For consideration, please send a text (ASCII), HTML or PDF version of your resume to ctm-jobs@ctmdev.com
